central nervous system cancer
nevus
partial epilepsy
response to irinotecan
gastric cancer
drinking behavior
upper gastrointestinal tract neoplasm
exercise
response to ribavirin
chronic hepatitis C infection
response to reverse transcriptase inhibitor
diffuse large b-cell lymphoma
brain aneurysm
stroke
coffee consumption
neuroblastoma
response to acetaminophen
response to pnt antagonist
vitamin d deficiency
vascular dementia
mucocutaneous lymph node syndrome
response to paclitaxel
response to cisplatin
myeloproliferative disorder
behcet's disease
hodgkins lymphoma
type 1 diabetes nephropathy
atherosclerosis
epilepsy
pancreatitis
memory, short-term
infant, small gestational age
primary sclerosing cholangitis
lung adenocarcinoma
diabetic nephropathy
gallbladder neoplasm
autism
type 2 diabetes nephropathy
response to vitamin
osteosarcoma
abdominal aortic aneurysm
response to methotrexate
cholangiocarcinoma
nephroblastoma
thyroid carcinoma
response to cisplatin
hip geometry
dilated cardiomyopathy
prion disease
bladder carcinoma
endometrial neoplasm
uterine fibroid
sensory perception of bitter taste
c-reactive protein measurement
adiponectin measurement
body height
high density lipoprotein cholesterol measurement
body mass index
low density lipoprotein cholesterol measurement
fasting blood glucose measurement
triglyceride measurement
bone density
blood pressure
waist circumference
body weight
hip circumference
birth weight
physical activity
head circumference
energy intake
energy expenditure
body composition measurement
arrhythmia
amyotrophic lateral sclerosis
ulcerative colitis
crohn's disease
psoriasis
type 1 diabetes mellitus
parkinson's disease
systemic lupus erythematosus
celiac disease
pancreatic carcinoma
chronic lymphocytic leukemia
osteoarthritis
coronary heart disease
schizophrenia
esophageal carcinoma
type 2 diabetes mellitus
hypertension
metabolic syndrome
waist–hip ratio
qt interval
rheumatoid arthritis
inflammatory bowel disease
platelet count
breast carcinoma
asthma
response to vaccine
alzheimer's disease
response to drug
bipolar disorder
unipolar depression
attention deficit hyperactivity disorder
autism spectrum disorder
mean corpuscular hemoglobin concentration
hematocrit
mean corpuscular hemoglobin
erythrocyte count
mean corpuscular volume
colorectal adenocarcinoma
amyotrophic lateral sclerosis
aging
non-small cell lung carcinoma
obesity
graves disease
response to antineoplastic agent
response to pollution
non-alcoholic fatty liver disease
plasma cell neoplasm
age-related macular degeneration
melanoma
partial thromboplastin time
venous thromboembolism
response to fenofibrate
vitiligo
seasonal allergic rhinitis
prostate carcinoma
response to antidepressant
cervical cancer
alcohol dependence
response to hydrochlorothiazide
sudden cardiac arrest
acute lymphoblastic leukemia
smoking behavior
response to anticoagulant
leukocyte count
gastric carcinoma
breast carcinoma
chemotherapy response
hypertensive hypertrophy
squamous cell carcinoma
platelet aggregation
lung carcinoma
response to ziprasidone
response to risperidone
response to quetiapine
response to olanzapine
ankylosing spondylitis
chronic gastroenteritis, esophagitis
response to calcitriol
response to candesartan
abdominal globulin ratio measurement
testicular carcinoma
nasopharyngeal neoplasm
response to fadiatiorl
alcohol drinking
red blood cell distribution width
behavior
brachial circumference
tooth eruption
response to anticonvulsant
prader-willi syndrome
breast size
atrial fibrillation
sensory perception of taste
sensory perception of smell
circadian rhythm
glaucoma
carcinoid tumor
response to perphenazine
response to clozapine
measles
metabolic disorder
creutzfeldt jacob disease
odontogenesis
heart failure
Glycine, serine and threonine metabolism
Citrate cycle (TCA cycle)
RIG-I-like receptor signaling pathway
Cysteine and methionine metabolism
Base excision repair
RNA degradation
Non-homologous end-joining
Proteasome
Carbohydrate digestion and absorption
Cross-talk between apoptosis and autophagy
Starch and sucrose metabolism
Mucin type O-Glycan biosynthesis
Pentose phosphate pathway
Thyroid cancer
NOD-like receptor signaling pathway
Spliceosome
N-Glycan biosynthesis
Nicotinate and nicotinamide metabolism
Maturity onset diabetes of the young
Prion diseases
Toll-like receptor signaling pathway
Aldosterone-regulated sodium reabsorption
Ubiquitin mediated proteolysis
Leukocyte transendothelial migration
Hypertrophic cardiomyopathy (HCM)
Amyotrophic lateral sclerosis (ALS)
Protein processing in endoplasmic reticulum
p53 signaling pathway
Chemokine signaling pathway
Small cell lung cancer
Acute myeloid leukemia
Apoptosis
Hedgehog signaling pathway
Basal cell carcinoma
Colorectal cancer
Olfactory transduction
mTOR signaling pathway
TGF-beta signaling pathway
Wnt signaling pathway
Protein digestion and absorption
Bacterial invasion of epithelial cells
Insulin signaling pathway
Type I diabetes mellitus
Adipocytokine signaling pathway
Neurotrophin signaling pathway
Complement and coagulation cascades
Fatty acid metabolism
Natural killer cell mediated cytotoxicity
Glycolysis / Gluconeogenesis
Tyrosine metabolism
Metabolism of xenobiotics by cytochrome P450
Drug metabolism - cytochrome P450
Type I diabetes mellitus
Antigen processing and presentation
Autoimmune thyroid disease
Cell adhesion molecules (CAMs)
Phagosome
Intestinal immune network for IgA production
Rheumatoid arthritis
T cell receptor signaling pathway
Salmonella infection
Leishmaniasis
Inositol phosphate metabolism
Phosphatidylinositol signaling system
Huntington's disease
Longevity regulating pathway
Alzheimer's disease
Chagas disease (American trypanosomiasis)
Vitamin digestion and absorption
Vitamin digestion and absorption
mRNA surveillance pathway
Oocyte meiosis
Alzheimer's disease
Vasopressin-regulated water reabsorption
Progesterone-mediated oocyte maturation
Glycosphingolipid biosynthesis - globo series
Salivary secretion
Bile secretion
Glycolysis / Gluconeogenesis
Glycosylphosphatidylinositol(GPI)-anchor biosynthesis
Sphingolipid metabolism
Propanoate metabolism
One carbon pool by folate
Other glycan degradation
Glycosphingolipid biosynthesis - lactoseries
Sphingolipid metabolism
Butanoate metabolism
Ribosome biogenesis in eukaryotes
Pentose phosphate pathway
Selenocompound metabolism
Glycosphingolipid biosynthesis - globo series
Terpenoid backbone biosynthesis
Propanoate metabolism
Proximal tubule bicarbonate reclamation
Sulfur relay system
Vitamin digestion and absorption
Vitamin digestion and absorption
Steroid hormone biosynthesis
Cytosolic DNA-sensing pathway
Biosynthesis of unsaturated fatty acids
Propanoate metabolism
Valine, leucine and isoleucine degradation
Lysine degradation
Arginine and proline metabolism
beta-Alanine metabolism
Ascorbate and aldarate metabolism
Glycerolipid metabolism
Pentose and glucuronate interconversions
Hypertrophic cardiomyopathy (HCM)
Arrhythmogenic right ventricular cardiomyopathy (ARVC)
Calcium signaling pathway
Chemokine signaling pathway
Ether lipid metabolism
VEGF signaling pathway
Fat digestion and absorption
alpha-Linolenic acid metabolism
Arachidonic acid metabolism
Glycosaminoglycan degradation
Vascular smooth muscle contraction
Long-term depression
Fc epsilon RI signaling pathway
Neuroactive ligand-receptor interaction
Dorso-ventral axis formation
Epithelial cell signaling in Helicobacter pylori infection
Bladder cancer
Prostate cancer
Adherens junction
Glioma
Pancreatic cancer
Non-small cell lung cancer
Cytokine-cytokine receptor interaction
ECM-receptor interaction
Focal adhesion
Endocytosis
Erbb signaling pathway
Melanoma
Pathways in cancer
MAPK signaling pathway
Jak-STAT signaling pathway
Collecting duct acid secretion
Alanine, aspartate and glutamate metabolism
Basal transcription factors
Glycosaminoglycan biosynthesis - keratan sulfate
Pathogenic Escherichia coli infection
Nucleotide excision repair
Peroxisome
Other types of O-Glycan biosynthesis
Glycosphingolipid biosynthesis - ganglio series
Nucleotide excision repair
Mismatch repair
Homologous recombination
Fructose and mannose metabolism
Amino sugar and nucleotide sugar metabolism
Base excision repair
Porphyrin and chlorophyll metabolism
Taurine and hypotaurine metabolism
Ovarian steroidogenesis
Regulation of autophagy
Glycosaminoglycan biosynthesis - keratan sulfate
Drug metabolism - other enzymes
Pyrimidine metabolism
Metabolic pathways
Glycosaminoglycan biosynthesis - heparan sulfate
Axon guidance
